THE GOLDEN RATIO

The Golden Ratio is a mathematical ratio found in nature, which is commonly denoted by the symbol for phi (ϕ). Two entities can be in The Golden Ratio if their ratio is equivalent to the ratio of their sum and the larger of the two entities.

THE GOLDEN RATIO

The Golden Ratio is being used in paintings and architecture for ages now. It is used to create charming compositions that replicate natural designs. The Golden Ratio makes buildings and spaces more aesthetically satisfying by giving them a more proportional look. The Golden Ratio makes things look complete as if everything was destined to be there.

Each building or construction you see seems to be different in terms of sizes, shapes, and styles. However, they are similar at the core since all the calculations are based on the natural materials. Golden Ratio determines each of its proportions. The evenly spaced columns or peaked and sloped roofs are the simplest examples of the rule since the lengths and widths of shapes correspond, to the ratio and the resulting rectangles can be further divided into smaller and smaller segments while maintaining ratio's proportion.

E X T R A O R D I N A R Y Size

A complete and versatile project: from the largest size available in the ceramics market, 120x240cm and 6mm, 9mm thick, down to the most common size, 120x120cm, 10 mm thick, passing through a full range of intermediate sizes.

E X T R A O R D I N A R Y Style

The ceramic design interprets different inspirations, ensuring maximum aesthetic appeal in any type of environment and giving each its own style.

E X T R A O R D I N A R Y Form

The Inkjet ceramic technology allows for any collection and colour, a high number of different graphics, for an aesthetic effect of the flooring and cladding that is always varied and never repetitive.

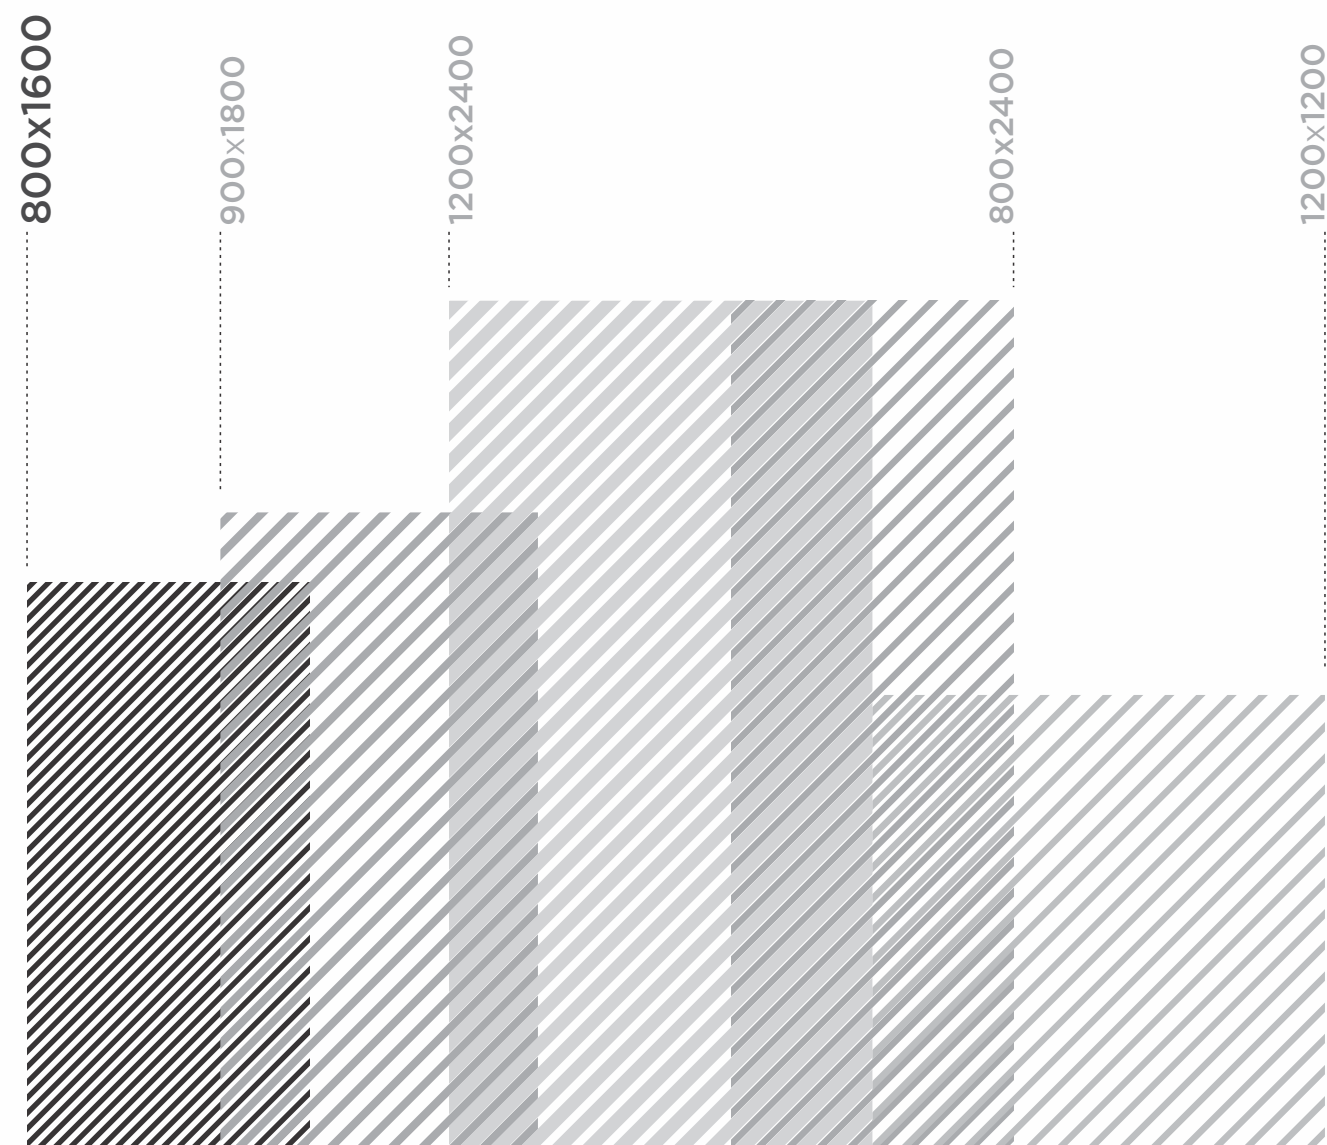

E X T R A O R D I N A R Y Weight

The slabs are easy to move and handle as they are only 6 mm thick, ensuring lightness despite their large size.

E X T R A O R D I N A R Y Built

With large sizes, you can make cuts of any shape and size, to further extend the possibilities of use of the slab covering floors, walls, furniture, tables and doors.

Product Details

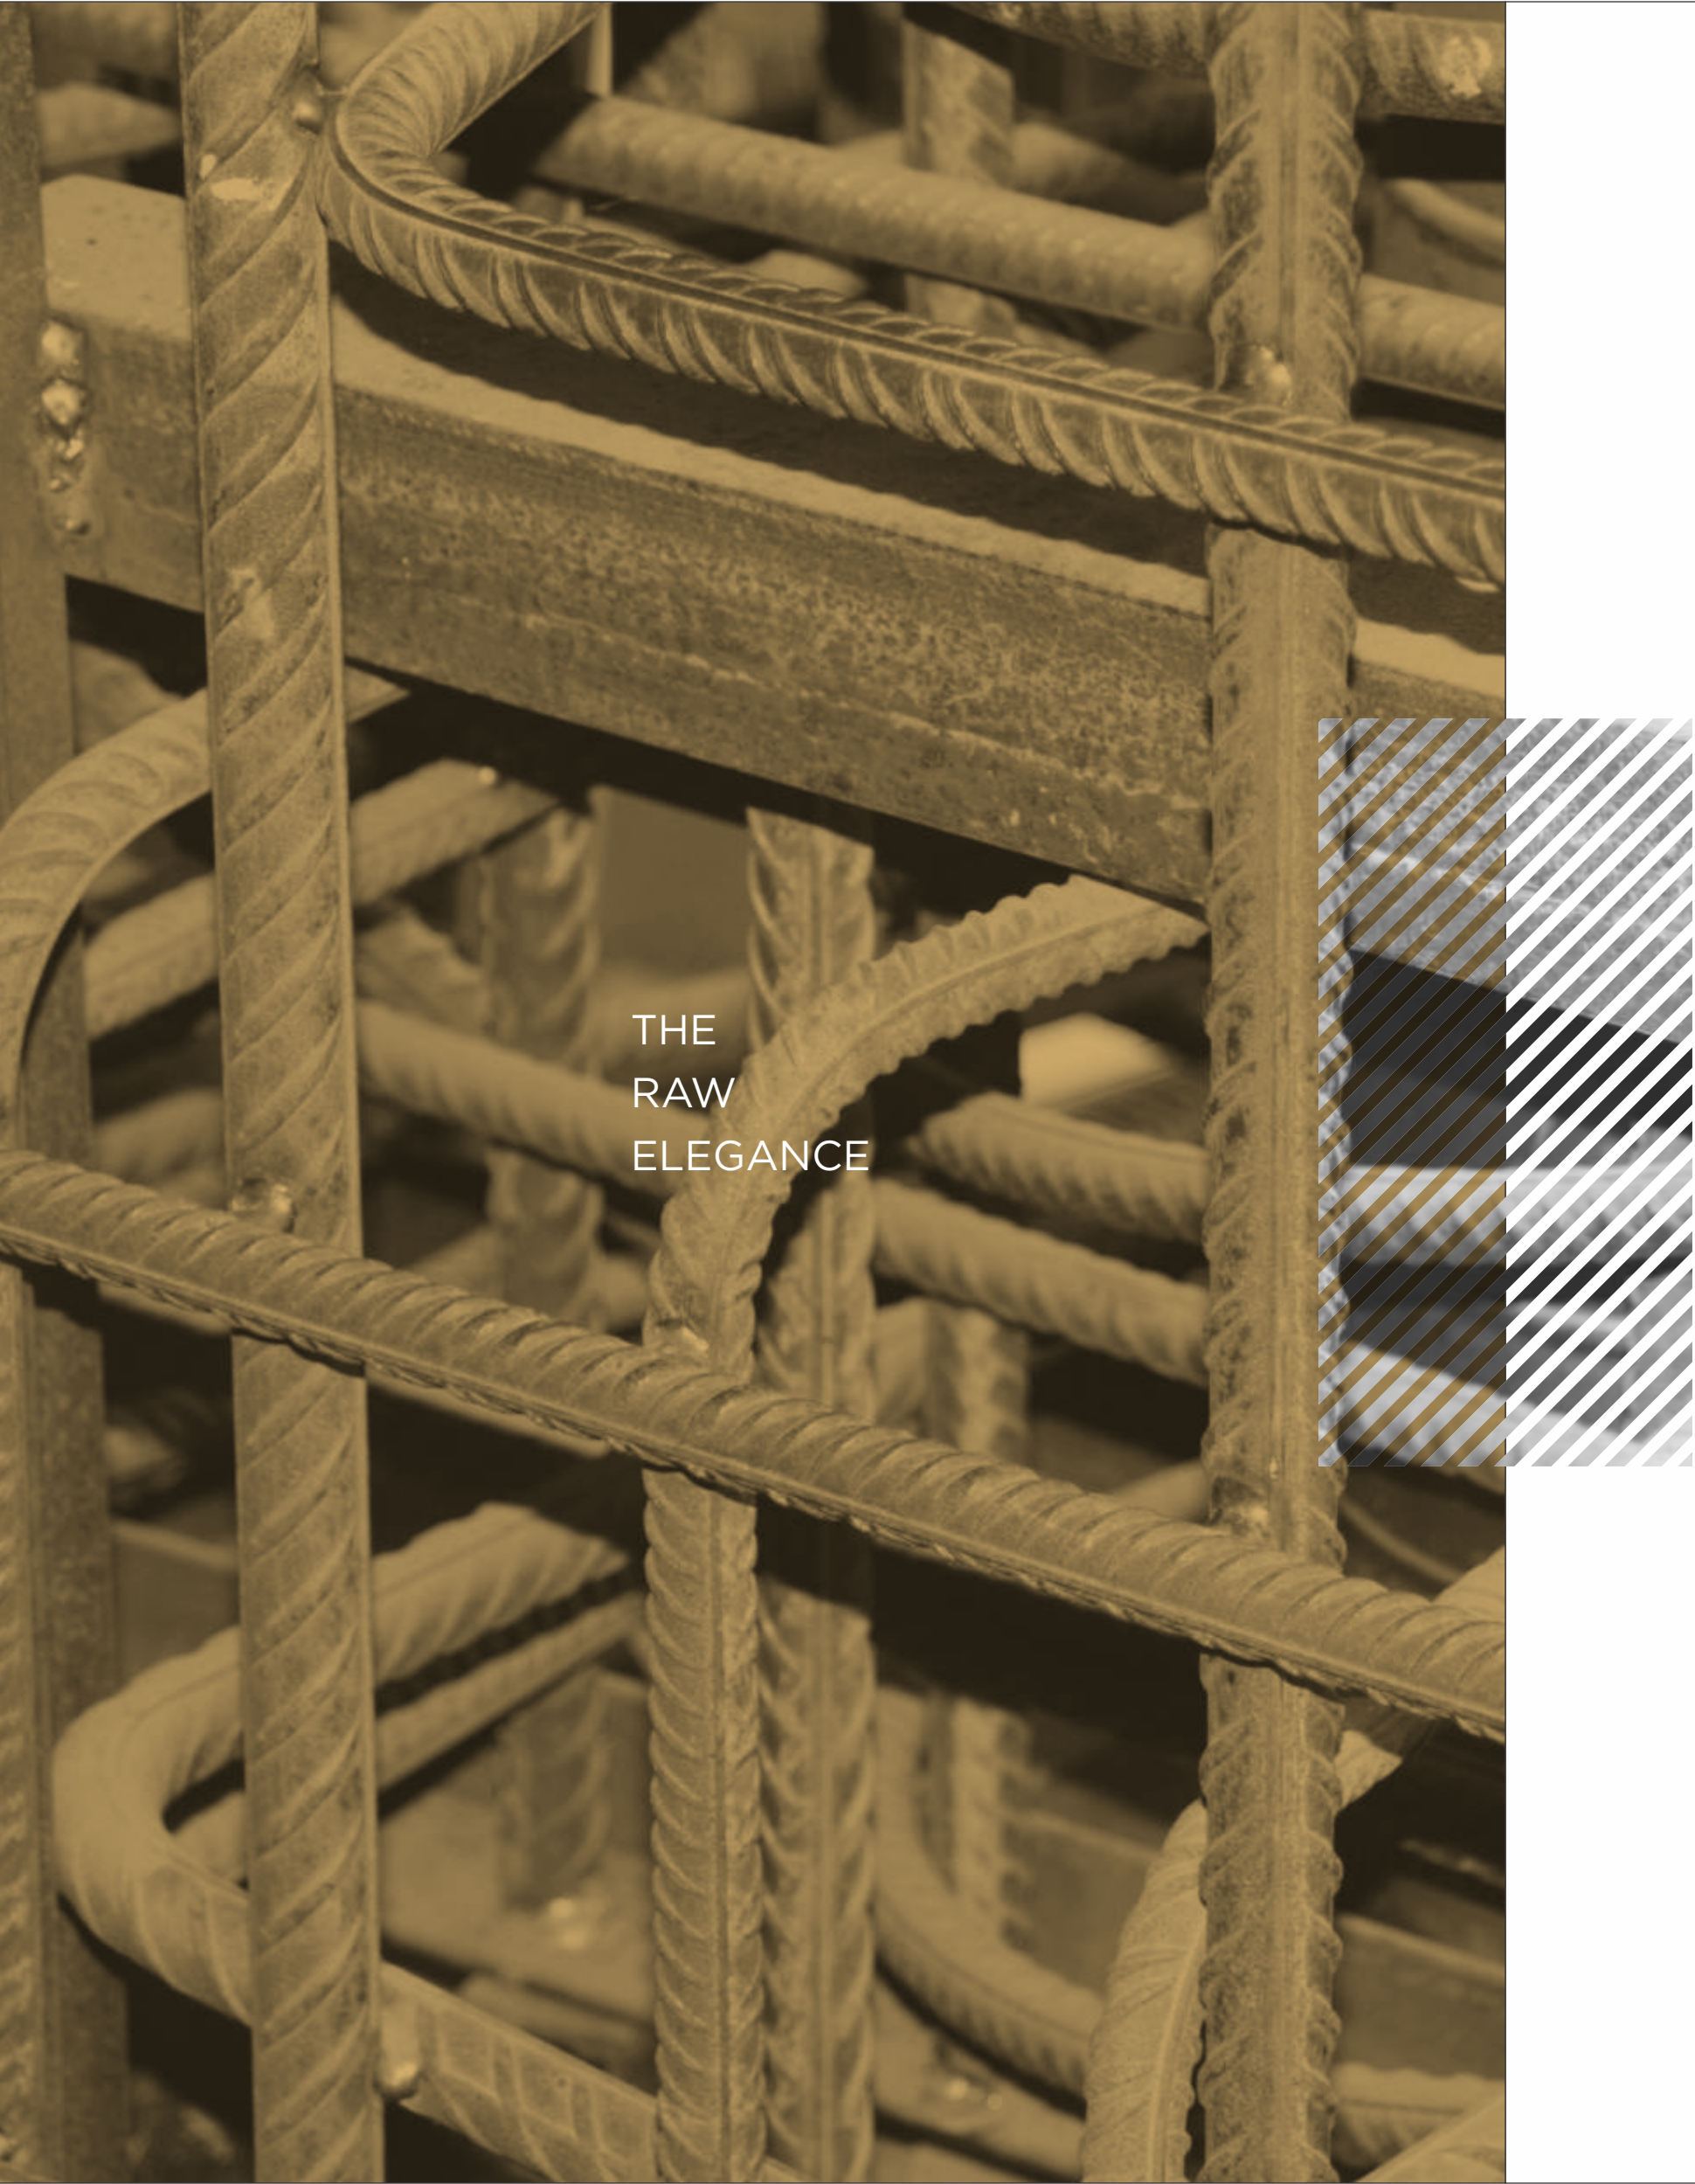

Our various products have been carefully developed by using The Golden Ratio. This allows our tiles to give every décor and space a complete appearance. Our perfectly proportionate tiles enhance the innate aesthetics of the space by providing a sense of balance and equilibrium.

Flaunt enchanting impressions effortlessly

-  GLEAMING EFFECT
-  GLARE-FREE POLISH
-  NATURAL SURFACES
-  SOFT TO TOUCH

Technical Features

-  Italian Technology
-  Resistance to Heat
-  6mm | 9mm Thickness
-  Flexural Strength
-  Resistance to UV Rays
-  Stain Resistant
-  Waterproof Surface
-  Hygienic and Scratch Resistant Surface
-  Frost Resistant
-  Lightweight
-  Chemical Resistant
