Company Profile

Our Company was founded in 1989 since then we have steady growth. We started as trading company.

After two years we started manufacturing Sodium Hypochlorite (known water treatment chemical) for Drinking Water, Pharma Industries, C.O.D. removal, Bleaching, Hospital use, Dairy use and many other uses. We are first and only "Exporter" of Sodium Hypochlorite. Our production / sale of Sodium Hypochlorite is 700 Ton / Month.

In time to come we added in our manufacturing other water treatment chemicals **i.e.** Alum (Ferric / Non-ferric), P.A.C (Poly Aluminium Chloride Liquid), Distilled water, Calcium Peroxide.

We also take contract for ETP-STP and WTP, So we know which quality will be required by Party.

Before 10 years we have started trading of other water treatment chemicals. **i.e.** Lime, Ferrous Sulphate, Poly Electrolyte (Powder / Jelly), Sodium Chlorite which are manufactured by our associates having full equipment to produce quality product. We trade in bulk chemicals also. Our production / sale of Sodium Hypochlorite is 700 Ton / Month.

In our future planning, we to manufacture Calcium Hypochlorite, Humic Acid, P.A.C. Powder.

In short we are engaged with water and waste water treatment. We have factory worth Rs. 2 crore, and our last year's turn over Rs. 7.00 crore.

Our Factories and our associates's factories are open for vendor audit, Quantity consistency and timely supplies can be assured.

We cater our services to more than 350 clients (50% our clients are I.S.O. Certified Companies).
