A B O U T U S

It is a new leading enterprise among the world in the thin tile industry. Ensure the long term competitiveness and sustainability of the company through scientific research, innovation, and design and information technology.

It gets together international thin tile experts and top oriental architects, using the latest and innovative special technology to produce 4.8mm thin tile with european standard in any sizes; which has become a shining new star in present eco-protective time. It has launched many series products with the idea of thin, light, strong and big; successfully build up the company image of green skin for architecture and leading the traditional tile industry to upgrade and transform.

It's thin tile is fire-proof, Moisture-proof, Mould-proof, Long lasting, Low cost, Low labor cost, resources saving and environment improving. It can be widely used indoor or outdoor wall, bus station, airport, metro station and all sorts of places, it has been gaining great reputation among the world through thousands of projects. The application of It's thin tile is going to be the revolutionary replacement of traditional tiles and materials, thin tiles with bigger size but lighter weight are going to be the trend of the market.

Breccia

info@cittasurfaces.in

A modern kitchen interior featuring Breccia marble surfaces. The walls and floor are covered in large, light-colored marble tiles with prominent golden-brown veining. A long, white countertop runs across the middle of the room, supported by a dark wood cabinet. On the countertop, there is a bottle of wine, a glass, and a small black pot. Above the countertop, a large, white, rectangular range hood is mounted. In the foreground, two high-top bar stools with dark brown leather seats and chrome frames are positioned. The ceiling is made of dark, textured concrete. The overall aesthetic is contemporary and sophisticated.
